

Dear Sir:

I would like to ask you, please, to review the attached manuscript, which has been submitted for publication as a regular paper of the Nuclear Structure Session of SLAFNAP proceedings.

The manuscript corresponds to the contribution

NS 8

Please indicate if in your opinion the manuscript

a) Should be accepted as it is.....Yes(X)

b) Should be corrected to include/answer the following aspects/points.

Further comments:

The paper describes the results of a systematic of isoscalar and isovector pairing vibrations and gamow-teller excitations in  $^{58}\text{Ni}$ . The calculations are quite useful for the analysis of experiments which are now being performed or will be performed in the near future.
